

Sinclair Broadcast Group's recent actions have proven recently that the media is in fact far from "liberal." Right now a little liberal might not hurt anyway! Just because a relative of one of the administration has been appointed to pad the books for the big business interests (Mr. Powell) does not mean that at least SOME do not know what is going on. Right now it is some and soon it will be many. Please do not put this advertisement on the air for G.W.B.!
